

A Report on Students Evaluation of Teachers

Students were given an opportunity to evaluate the teaching abilities and performance of their teachers at the end of the first Semester of 2011-2012 academic year.

The questionnaire had a five point scale starting with performance and ending with excellent performance. The cumulative score is used to convert into a letter grade which indicates their performance in that particular course.

The teaching performance of most of the teachers is evaluated by Students as good and very good performance. A few teachers who are involved in teaching Accountancy and Mathematical courses are assessed as teachers whose performance is above average. However it is encouraging to note that the students consider that there are no teachers who are below average.
